SURFACES

PRODUCT BENEFITS

- Versatile product
- Suitable for vertical supports
- Fast
- Effective

PACKAGING:

- In 20kg, pallet of 24 x 20kg
- In 5kg, pack of 4 x 5kg
- In 750g, pack of 24 x 750g

AREAS OF APPLICATION

SCALP SENSITIVE SURFACE CLEANER is intended for the removal of all types of graffiti on surfaces protected with VERNAEAU PU 16 or on sensitive surfaces such as wood, bodywork or road signs (test beforehand).

APPLICATION

- 1. DILUTION:** ready to use.
- 2. APPLICATION TOOLS:** natural fibre roller, brush, cloth.
- 3. PROCEDURE:** Mix well. Apply SCALP SENSITIVE SURFACE CLEANER to the graffiti using small circular movements and leave to act. Wipe with a cloth. Repeat if necessary. If traces persist, use SCALPNET EDJ 28.
- 4. APPLICATION TIME:** 10 to 20 minutes.
- 5. APPLICATION TEMPERATURE:** 5 to 50°C. At extreme temperatures, effectiveness is reduced.
- 6. CLEANING OF TOOLS:** Tools should be cleaned with White Spirit immediately after use.
- 7. COVERAGE:** Approximately 300g/m².*
- 8. STORAGE:** Store the product in a frost-free room protected from bad weather and direct sunlight.

*Notions of coverage are given as an indication only. These data make it possible to evaluate the cost of the work. They are in no way contractual; only tests can define the exact quantities of product to be applied according to the different surfaces to be treated.

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist.

PHYSICO-CHEMICAL CHARACTERISTICS

- Appearance: liquid
- Colour: light pink
- Density: 0.950 g /cm³
- pH: not applicable
- Not affected by frost
- Flash point: 26°C

APPLICATION PRECAUTIONS

1. PROTECTION OF SURFACES: Avoid prolonged application on plastics or rubber.

2. PERSONAL PROTECTION: Do not smoke. Wear PVC gloves and goggles when applying with a roller or brush.

Important: The content of this documentation is based on our experience with the product. We cannot be held responsible for its use in any particular case. Given the specific characteristics of each surface (wear, alteration of completeness and/or properties, chemical composition, etc.) and in order to avoid any deterioration of the surface to be treated, it is essential to carry out a test of the Scalp product on a small surface to be treated, respecting the application procedure, in order to ensure that there is no deterioration. Professional product: dangerous, respect the precautions for use. Wear Personal Protective Equipment (PPE) and consult the Safety Data Sheet (SDS).
