

PH-NEUTRAL, COV-FREE CLEANER FORMULATED FROM BIOBASED RAW MATERIALS

FACADE CLEANER, SPECIFICALLY ADAPTED TO BRIQUE FACADES FACADES CLEANER EFFECTIVE - VISIBLE AND DURABLE RESULTS

P PRODUCT BENEFITS

- Formulated from biosourced raw materials
- VOC-free
- Visible and durable results
- pH neutral
- Formulated from biodegradable MP according to OECD standard
- Airless spray
- Without neutralizing the substrate (no efflorescence)
- Does not attack building materials
- Sprayable: Ideal for drone application = increased safety, time savings, uniform spraying, cost reduction

PACKAGING :

- 20 kg : pallet of 24 X 20 kg
- 5 kg : carton of 4 X 5 kg

BRICK NET EKO'R is ideal for removing black atmospheric soiling from mineral surfaces. It is recommended for cleaning fragile materials such as bricks, concrete, porcelain, stoneware, glass paste, mignonettes, etc.

VOC-free, it is recommended for washing jobs where environmental constraints are important, particularly in high-traffic areas.

DILUTION: Ready to use, Nevers Dilute.

TOOLS: Roller, brush, airless or other sprayer, Compatible with spray drones **METHOD:** Thoroughly homogenize the product before applying BRICK NET EKO'R. Apply the product from bottom to top in a thick, greasy layer to the surface to be cleaned. Leave for 1 to several hours before rinsing from bottom to top with pressurized water. Repeat if necessary.

<u>APPLICATION TIME:</u> One to several hours. We advise applying in the evening and rinsing the following day.

<u>APPLICATION TEMPERATURE</u>: From 5 to 50°C. Efficacy is reduced at extreme temperatures

CLEANING OF TOOLS: Clean tools in water immediately after use.

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist. <u>APPLICATION RATE</u>: From 100 to 200 g/m² according to surface porosity.* <u>STORAGE</u>: Store the product in a frost-free location where it is protected from the weather and away from direct sunlight.

* Coverage areas are provided for information only and can be used to assess a project. They are in no way contractual; only tests can define the actual amount of product required depending on the surface to be treated.

CARACTERISTICAS FISICOQUIMICAS

- Aqueous product in thixotropic gel form
- Slightly yellowish
- Density: 1.1 +/- 0.03 g /cm3 at 20°C
- pH:7
- Not frost resistant, but effects reversible
- Flash point : Non-flammable

A PPLICATION PRECAUTIONS

PROTECTION OF SURFACES Does not require any protection, clean possible splashes quickly with a cloth.

PROTECTION OF PERSONNEL: Avoid contact with eyes and skin. In case of contact, wash with water. Wear PVC gloves. Wear a helmet with face shield for spray application. Wear goggles for brush application. Wear suitable coveralls (waterproof).

Important: The contents of this documentation result from our experience of the product. We cannot be held responsible for its use in each individual case. It is essential to test areas to be treated beforehand. See the Safety Data Sheet (SDS).
