

SCALP PRONET

CONCENTRATED, MULTI-PURPOSE CLEANER AND DEGREASER

- Powerful and effective
- Very versatile
- Concentrated
- Faint odour
- Top-of-the-range product
- Low VOC content (32g/L)
- Readily biodegradable

PACKAGING:

- 20L: 24 x 20L pallet
- 5L: 4 x 5L pallet
- 1L: 10-unit pack

REAS OF APPLICATION

SCALP PRONET is a concentrated, multi-purpose cleaner, surface-dirt remover and degreaser, for cleaning metal cladding, painted floors or any mineral or organic surface, whether painted or not.

PPLICATION

- 1. DILUTION: May be used pure but must be diluted for painted or organic surfaces.
 - Very dirty surfaces: 25 % dilution
 - Dirty surfaces: 10 % dilution
 - Somewhat dirty surfaces: 5% dilution
- 2. APPLICATION EQUIPMENT: Brush, roller, paint brush. Suitable sprayer or highpressure cleaner.
- 3. OPERATING PROCEDURE: Apply SCALP PRONET pure or diluted to the surface and leave it to work for 5 to 10 mins. Scrub with a brush then rinse surface thoroughly with pressurised water or a water jet.
- 4. APPLICATION TIME: 5 to 10 mins, or more, depending on the desired roughness.
- 5. APPLICATION TEMPERATURE: 5 °C to 50 °C. Effectiveness is reduced at extreme temperatures.
- **6. TOOL CLEANING:** Tools must be cleaned with water straight after use.
- 7. YIELD: Approximately 150 g / m^{2*}.
- 8. STORAGE: Store product in frost-free premises, away from the elements and direct sunlight.

*Yield information is only provided as a rough guide. This information is useful to work out the amount needed for the project. This information is in no way contractual. The exact quantity of product to be applied can only be established through tests, based on the different surfaces to be treated.

PHYSICO-CHEMICAL FEATURES

Concentrated product

Colourless / yellow liquid

Density: $1.1g \pm 0.03 g / cm^3$ at 20 °C

pH: 14

Frost-proof

Flash point: None

Formulated with readily-biodegradable surfactants, as defined in Regulation (EC) No.648/2004 on detergents.

BIODEGRADABILITY OF THE PRODUCT

Biodegradation rate in 28 days: 65% to 75% (68,7% experimental)

10-day interval respected: N/A (yes) Conclusion: Easily biodegradable

PPLICATION PRECAUTIONS

- 1. PROTECTION OF SURFACES: Surfaces not to be cleaned (paints, aluminium, zinc, copper and surrounding vegetation) must be well protected. If in doubt, first test on a small area. Do not apply to painted surfaces without first testing.
- 2. PROTECTION OF PERSONS: This product is a mixture of basic salts and surfactants. It is corrosive to skin and can cause severe burns. In the event of contact with skin, immediately wash with water. Wear overalls that give full protection from chemical products. Use full-protection safety goggles to protect against splashes. Wear PVC gloves.

Important: The contents of this document stem from our experience with the product. We cannot be held liable as far as its use is concerned in every individual case. Given the particular characteristics of each surface (wear and tear, alteration of the entire surface and / or its properties, chemical composition etc.), and to avoid any damage to the surface to be treated, it is essential that the Scalp product be tested on a small area to be treated, by following the procedure for application, in order to ensure that no alteration occurs. Professional product: dangerous, follow application precautions. Wear personal protective equipment (PPE) and refer to the safety data sheet (SDS).
