

SCALP AQUA 04

NEW-GENERATION DETERGENT SOLUTION, DEGREASER AGENT AND CONCENTRATED CLEANING AGENT. SUITABLE FOR USE ON ALL SURFACES THAT CAN COME INTO CONTACT WITH FOOD.

IDEAL FOR DRONE APPLICATION

PRODUCT BENEFITS

- Suitable for cleaning surfaces that may come into contact with food: components listed on the positive list (decree of September 8, 1999)
- Highly concentrated product
- Fast-acting
- High degreasing power
- Very versatile: grease, nicotine, soot, etc.
- EXCELL ZONE VERTE label
- Low VOC content (52g/L)
- Sprayable: Ideal for drone application = increased safety, time savings, uniform spraying, cost reduction
- Easily biodegradable according to OECD criteria (301F)

PACKAGING:

- 200l barrel
- 20l, palette of 24 X 20l
- 5l, pack of 4 X 5l
- 1l spray, pack of 12 X 1l
- 1I, pack of 12 X 1I

A REAS OF APPLICATION

Highly effective product intended for cleaning and degreasing small pieces of equipment, machine parts, utensils, food tanks, surfaces in the food-processing industry, industrial kitchens, dining rooms, hotels, canteens, hospitals, organisations, etc. It features a powerful degreaser for use on vegetable and animal fats. This ultra-innovative cleaning agent is compliant with legislation relating to products used for cleaning equipment and items that come into contact with foodstuffs. It is also perfectly suited to the daily cleaning of mineral surfaces: tiles, porcelain stoneware, marble, etc.

It is also suitable for drone application, particularly for cleaning and degreasing façades and walls, even in hard-to-reach or high areas.

<u>Biodegradability:</u> The surfactant(s) contained in this preparation comply(s) with biodegradability criteria as defined in regulation (EC) No 648/2004 on detergents.

APPLICATION

1. <u>USE</u>: SCALP AQUA 04 Home Cleaner is extremely effective on all types of surfaces. SCALP AQUA 04 Home Cleaner is, by the very nature of its composition, recommended for cleaning surfaces located in "organisations"!

- 2. DILUTION: It can be used pure or diluted to between 5 and 50% depending on type of dirt and surface. For use in a high pressure cleaner, a concentration of between 1 and 5% is recommended at the nozzle exit (depending on the condition of the surface).
- 3. TOOLS: sponge, cloth, spray, high-pressure equipment, scrubber dryer, Compatible with spray drones
- 4. METHOD: Apply the product to the sponge or directly to the surface using the spray then wipe with a cloth or paper towel. The product must be rinsed off with water.
- **5. APPLICATION TIME: Immediate.**
- 6. APPLICATION TEMPERATURE: From 5 to 50°C. Effectiveness is reduced at extreme temperatures.
- 7. CLEANING OF TOOLS: Tools should be cleaned with water.
- 8. APPLICATION RATE: Dependent on the dilution of the product.
- 8. STORAGE: Store the product in a place not exposed to frost and protected from the elements and direct sunlight. Do not store at a temperature < 5°C.

PHYSICOCHEMICAL PROPERTIES

- Liquid detergent
- Clear liquid
- Density: 1.04 +/- 0.03 g /cm3 at 20°C
- pH : 11
- Protect from freezing but reversible
- Flash point : none

BIODEGRADABILITY OF THE PRODUCT

Biodegradation rate in 28 days: 85% to 95% (88,8% experimental)

10-day interval respected: N/A (yes) Conclusion: Easily biodegradable

PPLICATION PRECAUTIONS

1. PROTECTION OF SURFACES: Presents no specific hazards to equipment. 2. PROTECTION OF PERSONS: Please wear protective gloves and glasses. If the product comes into contact with eyes or skin, wash with water.

Important: The contents of this documentation result from our experience of the product. We cannot be held responsible for its use in each individual case. It is essential to test areas to be treated beforehand. See the Safety Data Sheet (SDS).

^{*} Coverage areas are provided for information only and can be used to assess a project. They are in no way contractual; only tests can define the actual amount of product required depending on the surface to be treated.
