

SCALP ACCELERATOR M

DETERGENT AND BOOSTER PRODUCT FOR ALGICIDE AND BIOCIDE TREATMENTS (SCALP ANTI-M & SCALP ANTI-M 3100)

BOOSTS AND ACCELERATES THE ACTION OF THE TREATMENT

- Boosts the product's power by enhancing its action on: grease, soot, black marks, air pollution residues, etc.
- Visible results faster
- Thanks to its concentrated ultra-detergent formula, it provides a powerful degreasing and cleaning effect.
- Chlorine-free and VOC-free
- Odorless
- Booster for SCALP ANTI-M and SCALP ANTI-M 3100 treatments

PACKAGING:

- In 5 litres, 4 x 5 litres parcels
- In 1L, 10 x 1L

A REAS OF APPLICATION

SCALP ACCELERATOR-M is an additive designed to enhance the effectiveness of algaecide and biocide treatments. When combined with a treatment product, it accelerates its action while broadening its spectrum of effectiveness, particularly against greasy stains, traces of pollution, and black deposits. It works by improving the penetration of biocides into the heart of the targeted microorganisms (algae, lichens, green deposits, etc.), which visibly accelerates the results.

APPLICATION

<u>DILUTION</u>: Dilute 1 liter of SCALP ACCELERATOR-M in 8 to 10 liters (mixture concentration: 10%) of ready-to-use treatment. Mix thoroughly (Booster + biocide treatment) before application.

APPLICATION EQUIPMENT: Brush, roller, sprayer.

MODE OF OPERATION: Apply the mixture until completely saturated on completely dry surfaces. Leave to act. If there is a thick layer of microorganisms, use mechanical means to remove them. The treated surface will regain its clean appearance after a few days. Never rinse after application.

APPLICATION TIME: Leave on until the stains disappear.

<u>APPLICATION TEMPERATURE</u>: 5 °C to 50 °C. Effectiveness is reduced at extreme temperatures.

TOOL CLEANING: Cleaning of tools will be made with water immediately after application.

YIELD: Refer to the performance of the biocide treatment.

STORAGE: Store product in frost-free premises, away from the elements and direct sunlight. Do not store at temperatures < 5 °C.

* Yield information is only provided as a rough guide. This information is useful to determine the amount needed for the work. This information is in no way contractual. The exact quantity of product to be applied can only be established through tests, based on the different surfaces to be treated.

PHYSICOCHEMICAL PROPERTIES

- Detergent product
- Liquid transparent
- Density 1,1g / cm³ at 20 °C
- COV : 0g/L

- pH: 14
- Do not allow to freeze
- Flash point: None

A PPLICATION PRECAUTIONS

- 1. PROTECTION OF SURFACES: Avoid contact with surrounding vegetation.
- **2. PROTECTION OF PERSONS** If splashing on the skin and face, wash with plenty of water. Wear PVC gloves. Wear a helmet with a protective visor for the face when using spray. Wear goggles for roller or brush application. Wear a suitable suit (waterproof).
- 3. SOILED PACKAGING: Must be emptied thoroughly. After cleaning with a suitable detergent, they can be reused. The unused product is disposed of by incineration in an approved centre. The packaging may be disposed of as non-hazardous waste under the full liability of the holder of these waste material sites. Do not dispose of residues in sewers and waterways.

If swallowed, do not induce vomiting, seek medical advice immediately and show them this container or label. Contact the nearest poison control centre (Paris: +33 01 40 05 48 48;; Lyon: +33 04 72 11 69 11; Marseille: +33 04 91 74 51 80).

Important: The contents of this document stem from our experience with the product. We cannot be held liable as far as its use is concerned in every individual case. Given the particular characteristics of each surface (wear, alteration of the entire surface and/or its properties, chemical composition etc.), and to avoid any damage to the surface to be treated, it is essential that some of the SCALP product be tested on a small area to be treated, by following the procedure for application, and thereby ensuring that there is no alteration. Professional product: dangerous, follow application precautions. Wear personal protective equipment (PPE) and refer to the safety data sheet (SDS).
