

BATI'NET M

READY-TO-USE PREVENTIVE BIOCIDE
PROTECTS ROOFS, FACADES, WALLS, AND OUTDOOR FLOORS
FROM ALGAE, LICHENS, AND GREEN DEPOSITS
INCLUDES A DETERGENT BOOSTER

P PRODUCT BENEFITS

- Protects against the growth of algae, lichens, and other green deposits
- Built-in detergent booster
- Effective on greasy stains, black deposits, and traces of air pollution.
- Long-lasting action
- No rinsing required
- · Faster visible results
- Sprayable product
- Does not damage materials or application equipment

PACKAGING :

- In 20 litres, 24 x 20 litres pallets
- In 5 litres, 4 x 5 litres parcels

A REAS OF APPLICATION

BATI'NET M is a high-performance algaecide treatment formulated from a combination of a concentrated biocide and an efficacy booster. This innovative synergy provides fast and enhanced action against algae, lichens, and microorganisms on all types of outdoor surfaces: roofs, facades, walls, and floors.

The integrated booster improves the penetration of the biocide into the heart of microorganisms (algae, lichens, green deposits), ensuring faster and more thorough elimination. It also broadens the treatment's scope of action by effectively acting on greasy dirt, black deposits, and traces of atmospheric pollution.

APPLICATION

DILUTION: Ready to use.

<u>APPLICATION EQUIPMENT</u>: Brush, roller, sprayer.

MODE OF OPERATION: Apply the mixture until saturated on completely dry surfaces. Leave to act. If there is a thick layer of microorganisms, use a mechanical means to remove them. The treated surface will regain its clean appearance after a few days. Never rinse after application.

APPLICATION TIME: Leave on until the stains disappear.

<u>APPLICATION TEMPERATURE</u>: 5 °C to 50 °C. Effectiveness is reduced at extreme temperatures.

TOOL CLEANING: Cleaning of tools will be made with water immediately after application.

YIELD: 200 to 300 ml / m².

- $5L \simeq 16.5 \text{ à } 25\text{m}^2$
- $20L \simeq 66 \text{ à } 100\text{m}^2$

STORAGE: Store product in frost-free premises, away from the elements and direct sunlight. Do not store at temperatures < 5 °C.

* Yield information is only provided as a rough guide. This information is useful to determine the amount needed for the work. This information is in no way contractual. The exact quantity of product to be applied can only be established through tests, based on the different surfaces to be treated

PHYSICOCHEMICAL PROPERTIES

- Detergent product
 - Green liquid, transparent
- Density 1g / cm3 at 20 °C
- pH: 13
- Do not allow to freeze
- Flash point: None

A PPLICATION PRECAUTIONS

- 1. PROTECTION OF SURFACES: Avoid contact with surrounding vegetation.
- **2. PROTECTION OF PERSONS** If splashing on the skin and face, wash with plenty of water. Wear PVC gloves. Wear a helmet with a protective visor for the face when using spray. Wear goggles for roller or brush application. Wear a suitable suit (waterproof).
- 3. SOILED PACKAGING: Must be emptied thoroughly. After cleaning with a suitable detergent, they can be reused. The unused product is disposed of by incineration in an approved centre. The packaging may be disposed of as non-hazardous waste under the full liability of the holder of these waste material sites. Do not dispose of residues in sewers and waterways.

If swallowed, do not induce vomiting, seek medical advice immediately and show them this container or label. Contact the nearest poison control centre (Paris: +33 01 40 05 48 48;; Lyon: +33 04 72 11 69 11; Marseille: +33 04 91 74 51 80).

Important: The contents of this document stem from our experience with the product. We cannot be held liable as far as its use is concerned in every individual case. Given the particular characteristics of each surface (wear, alteration of the entire surface and/or its properties, chemical composition etc.), and to avoid any damage to the surface to be treated, it is essential that some of the SCALP product be tested on a small area to be treated, by following the procedure for application, and thereby ensuring that there is no alteration. Professional product: dangerous, follow application precautions. Wear personal protective equipment (PPE) and refer to the safety data sheet (SDS).
